After School Library Policy

Haseltine Library is committed to providing excellent library services, but it is not the role of the library to provide short or long-term after school care. To ensure the safety of our younger students (grades K-5), a parent, caregiver, or older sibling (grades 6-12) must accompany and remain in the library with K-5 students after school. Any K-5 student in the library after school without an appropriate caregiver will be accompanied to the office, so a parent may be contacted.
