

## Texture Walk Scavenger Hunt: How Does It Feel?

The challenge is to go on a nature walk and find something that matches each of the descriptors. When you find something for the descriptor you check it off the list. There are 2 lines where you can find and add your own creative item. Please select one item to share on Seesaw. Use descriptive words to explain what the object is, where it could be found, how it feels, what it is called or what you think it should be called. You may decide to write a riddle about the object you select. Remember to use descriptive words to share about the item you found. Have fun!
